

## NUSATUNA is currently carrying out an expansion of its operations in Biak, Papua

Published: August 2023

Biak has a distinct advantage in terms of maritime resources, particularly Yellowfin Tuna. Cenderawasih Bay in Biak, Papua, has enormous potential for Yellowfin catch, boasting up to 800,000 tons annually.

With this potential in mind, NUSATUNA is pleased to announce its plans for expansion by establishing a tuna processing factory and ice block factory in Biak, covering an extensive 28,000-square meter site.

The factory is expected to have a production capacity of up to 12 tons per day. This production facility is exclusively committed to the production of premium Yellowfin Tuna for export, with an emphasis on the United States and the ASEAN region. The expansion plans aim to meet the increasing demand in these markets for high-quality tuna. The factory's strategic location in Biak, will ensure a steady supply of fresh yellowfin tuna.

Biak Yellowfin Tuna is caught sustainably and processed in accordance with industry best practices. All products comply with the highest standards of food safety and quality assurance. NUSATUNA is also committed to traceability standards for every shipment, ensuring that customers can track their purchases from the point of origin.

The factory's target operational is set for Q4 2023. This noteworthy development is expected to generate fresh employment opportunities and positively impact the region's economy.
