

# CERTIFIED READY TO EAT

22 LB / 13 OZ UP TUNA SAKU

*Thunnus albacares*

## Product Details

### Production Method

- Tasteless Smoke (TS)
  - Carbon Monoxide (CO)
- To promote color retention

### Sustainability Certification

- FIP (AP2HI) - MSC

### Optional Ingredients

- Sodium Citrate

### Thawing Instruction

Keep Frozen.  
Remove from packaging and thaw under refrigeration

### Shelf Life

24 months from production date  
(Frozen & closed)

7 days from defrosting date  
(chilled & opened)

### Weight Range

13.00 oz up

### Product Dimension

Length (5.50 - 7.50")  
Width (3.00 - 4.75")  
Thickness (0.8 - 1.2")

### Net Weight

22 lbs

### Grade

- Nusa Prime - Choice
- Prime

### Country Of Origin

Indonesia, Thailand

### Storage Condition

0°F or < -18°C (FIFO)

ALL PRODUCTS ARE PRODUCED IN FACILITY WITH BRCS A SCORE AND SEDEX 4 PILLARS

## Food Safety
